Summary

Passionate about building innovative and user-friendly web applications, I thrive in dynamic environments where I can learn, adapt, and solve complex problems. With over four years of experience, I am not just a developer—I am a problem-solver and an innovator.

From intuitive mobile apps to scalable software solutions, I believe great software is more than just code; it's about crafting seamless user experiences. Whether collaborating with teams, ensuring best coding practices, or streamlining workflows, my mission is simple: build technology that just works.

When I'm not coding, I'm refining my craft, exploring emerging technologies, and diving deep into software architecture—because every great system starts with a vision

Technical Skills

Programming Languages & Frameworks:

- **Proficient:** JavaScript, TypeScript, Node.js (Bun & Express.js), NestJS, React, React Router, Next.js, Remix, React Native, jQuery
- **Familiar:** Python

Frontend Development:

- HTML, CSS, WordPress
- UI/UX Design Tools: Photoshop, Figma

Backend Development:

- Prisma (ORM), SQL Databases (MySQL, SQL Server)

Version Control & Collaboration:

- Git, GitHub

Data & Analytics:

- Google Analytics (Tracking, Performance Analysis)

AI & Machine Learning:

- Basic Artificial Intelligence, Neural Networks, Machine Learning

Agile & Team Collaboration Tools:

- Jira, Confluence, Slack

Languages: Fluent in English; Beginner in French; Native in Persian.

Professional Experience

Sarava, Laval, Canada (*Jan 2021 – Present*)

Full Stack Developer

- Collaborated closely with clients to gather project requirements, define technical solutions, and drive successful project acquisitions.
 - Led end-to-end development of web applications, leveraging React, JavaScript, and React Native to build scalable, high-performance solutions for both Android and iOS platforms.
 - Designed, developed, and implemented new features while proactively identifying and resolving performance bottlenecks and software defects.
 - Conducted thorough code reviews to maintain high-quality, maintainable, and scalable code across multiple projects.
 - Optimized application performance and addressed complex development challenges, ensuring seamless user experiences and system reliability.
-

FIX4 Capital Inc., Montreal, Canada (*July 2021 – Nov 2023*)

Full Stack Developer

- Developed, maintained, and enhanced several web applications using React and JavaScript, ensuring seamless functionality and user experience.
- Led efforts in feature development, bug fixes, and system optimizations, improving platform stability and performance.
- Advocated for progressive development practices, introducing best coding standards and efficient workflows to enhance team productivity.
- Assisted the Digital Marketing team with Google Tag Manager integration, enabling advanced tracking and data-driven decision-making.
- Served as a code reviewer, ensuring high-quality code across multiple languages, including JavaScript and Node.js.
- Troubleshoot complex software issues, diagnosing and implementing effective solutions to minimize downtime and improve system reliability.
- Played a pivotal role in all phases of project planning, design, development, and deployment, ensuring successful project delivery.

Khatekhalagh, Iran (June 2017 – Dec 2019)

Junior Developer & Graphic Designer

- Maintained and updated company websites, ensuring optimal functionality, security, and user experience.
- Monitored website performance and implemented SEO best practices, improving search rankings and online visibility.
- Collaborated with sales and operations teams to ensure accurate, timely, and engaging content updates across digital platforms.
- Utilized Google Analytics and Google Tag Manager to track user behavior, generate insights, and optimize website performance.
- Designed marketing materials and digital assets, aligning with brand identity and enhancing the company's online presence.
- Assisted in content management, ensuring product and service details remained accurate, relevant, and engaging.
- Worked closely with cross-functional teams to align digital strategies with overall business objectives.
